SUMMARY

Aspiring Data Analyst with hands-on experience in data cleaning, EDA, and dashboard development using Python, SQL, Excel, and Power BI. Built end-to-end analytics projects on customer churn, marketing campaigns, retail revenue, and cafe BI using 30K-50K+ record datasets. Skilled in transforming raw data into KPI-driven insights and interactive dashboards that support business decisions.

KEY SKILLS

- Languages:** Python (Pandas, NumPy, Matplotlib), SQL (MySQL), DAX
- Tools:** Power BI Desktop, Microsoft Excel (Pivot Tables, VLOOKUP)
- Techniques:** Data Cleaning, EDA, KPI Reporting, ROI Analysis, Customer Segmentation, Dashboard Development

PROJECTS

Customer Churn Analysis | Python | Power BI | DAX | ~50,000 records | 1-Page Dashboard

- Cleaned 50K customer records; engineered is_churned flag (60-day inactivity) - no label existed in raw data.
- Detected 28.89% churn rate; low-value customers highest at 36.97%, medium-value most retained at 17.04%.
- App disengagement and purchase frequency drop identified as leading churn indicators (52 days inactive vs 42).

Marketing Campaign Performance & Profitability | Python | Power BI | DAX | 2,020+ campaigns, 6 channels | 2-Page Dashboard

- Analysed 6.29M spend generating 17.79M revenue overall ROI 2.83 across Google Ads, Instagram, TikTok, Facebook, Email.
- Google Ads: best performer with 7.03 ROI, lowest CPC (1.29). Email: worst ROI (2.01) at highest CPC (3.89).
- Flagged near-identical CTR (~3.01%) across all channels; poor targeting differentiation identified.

Retail Sales Analysis (2022-2024) | SQL | Power BI | DAX | 12,362 orders | 2-Page Dashboard

- SQL pipeline: enforced date types, resolved NULLs, deduplicated IDs, normalised category names before import.
- Analysed 15.4L total revenue, AOV 124.62; Online 51.01% vs In-Store 48.99%. YoY: +6.95% (2023), -3.89% (2024).
- Created is_full_year SQL flag to isolate partial 2025 data prevented trend distortion in dashboards.

BrewMetrics Cafe Revenue & Customer Behaviour | Python | SQL | Power BI | 30,000+ orders, 20K customers | 3-Page Dashboard

- Tracked 17,763K revenue, 592.10 AOV, 57% repeat customer rate; Online (8,850K) vs In-Store (8,913K).
- Java Chip Frappuccino: top by revenue (1,567K) and quantity (4.4K); Morning peak, Lunch flagged for promotions.
- Segmented 20K customers (Repeat/New/Loyal); repeat customers drive volume; AOV consistent across all types.

EDUCATION & CERTIFICATIONS

BCA	2022-Present
Maharshi Dayanand University, JB Knowledge Park	
Class XII	2022
Commerce with IT, Vidya Bhawan Mahavidyalaya	
Data Analyst Certification	2025 Pursuing
Indian Institute of Computer Science
